Building Permits.

Need to Know!

Buyer responsible for all permits, and building site preparations, (ie: gravel, dirt leveling, or concrete slab, concrete footings, or blacktop) as well as jobsite access.

When filling out your building permits, where they ask for contractor information,
Contractor Name= American Steel Carports Inc.

Business Name= American Steel Carports Inc.

Phone Number= 866.730.9865

o: Ground to peak height for your new building?

3:12 pitch is 3 inch rise every 1 ft.

1. Use your building width and add 1 ft.

2. Divide that width in half, then multiply that by 3,
(or your actual pitch, 4:12 multiply by 4, 5:12 multiply by 5)

3. Then divide that number by 12, that should be the rise in feet of your roof.

4. Add that number to your wall height for ground to peak height.

Call us, 218.409.2178 if you need help with peak height.

Buyer shall ensure that all underground utilities are flagged off and the construction site is leveled and prepped for installation, including driveway so a construction truck and 35ft trailer can access the building site.

Pictures required before scheduling.

Send a picture of you permit and your prepared site prep.

If no permit is required request a letter on the county's letterhead from building authority (stating no permit required and signed.)

Email your pictures to: Orders@american-steelgarages.com

Include your name and address.
